

Why Should I Support Your Charity's Work?

JDRF International

Improving Lives, Curing Type 1 Diabetes

JDRF funds groundbreaking research that brings tangible drug and device therapies into the lives of people with Type 1 Diabetes today. The cost of this research is daunting, and JDRF's history as a grassroots charity means we're experts at transforming generous donor support into true results that help people every day. We identify promising research opportunities and maximize the impact of every dollar we invest. Please help us accelerate progress toward curing, preventing and better treating T1D.

Breast Cancer Action

The watchdog of the breast cancer movement

Not your average breast cancer organization, Breast Cancer Action is fiercely independent and refuses corporate funding from any company or organization that profits from or contributes to breast cancer. As the watchdog of the breast cancer movement, *we educate, organize and take action for systemic change to ensure that fewer women develop and die from breast cancer* and so that no community bears a disproportionate burden of diagnosis or death from this disease.

Support Our Aging Religious – SOAR!

They were there for us. Now it's our turn to give.

Sisters, Brothers and religious order Priests—who have given their lives to the Church and its work—are facing a crisis. Many worked for only modest stipends. As their median age rises, their communities have little for retirement. Healthcare costs have soared. *In response, SOAR! awards grants to congregations of Catholic Sisters, Brothers and Priests to care for their retired members.* Your donation addresses their immediate needs and ensures their safety, comfort and dignity. Please help.

A Child's Hope Fund

Uplifting lives, one child at a time

Working with local partners in some of the world's poorest countries, we provide **tangible aid** – food, medicines and medical support – to individual children plagued by cancer and other debilitating conditions, plus their families and the institutions helping them. *Over 98% of all donations are used to help sick children and their struggling families.* Our efficiency and successes come by working directly with local organizations (hospitals, clinics, etc.) without duplicating services. We also help these groups better manage their work and stay accountable to their communities.
